

(((eco))) CORROSION RESISTANT PALLET TRUCKS

Whether it is a Clean-Room or Cold-Room environment or a highly corrosive chemical application, or the unit simply needs to be washed down on a regular basis, the ECO Corrosion Resistant Pallet Trucks will do the job.

ECO I-55 Galvanized Pallet Truck

For Corrosion Resistant as well as Cold applications Mobile offers a Galvanized Pallet Truck that is ideal for use in freezers or coolers with temperatures down to -10 degrees Fahrenheit as well as chemical exposure applications. Hygienic, durable and easy to clean, the ECO I-55 Galvanized Pallet Truck features 100% Galvanized Pump, Handle, Frame and components, and Polyurethane Wheels and Rollers. This model is widely used in meat processing, wineries, etc. and is well suited for transporting goods in and out of freezers/coolers.

ECO I-55 Stainless Steel Pallet Truck

For the ultimate in Corrosion Resistance, Mobile offers the ECO I-55 Stainless Steel Pallet Truck. This truck features 100% Stainless Steel Pump, Handle, Frame and components construction, and Polyurethane Wheels and Rollers offering maximum Corrosion Resistance in chemical, wet or cold applications. Providing durability, dependability, and low maintenance this unit is perfectly suited for Chemical Manufacturers, Pharmaceutical Companies, Food Manufacturers and Fisheries.
