

# MOBILE "LOW PROFILE" PALLET TRUCKS

Our In-house design, quality engineering and production capabilities have allowed Mobile to remain a leader in the custom Material Handling Equipment field - this is particularly true with the Low Profile Pallet truck line. Mobile offers three different Low Profile Pallet Trucks to handle a variety of special applications. Featuring the same quality design and components as the ML55, these trucks offer dependability, versatility and performance.

## “MINI”

The MINI features a 2" lowered height for handling conventional pallets, skids and containers that are too low for the standard 2.9" lowered height of the ML55.

Available in all the Mobile standard Pallet Truck fork sizes, these units can also be custom sized to suit specific applications.

The standard Steer Wheels are Poly/nylon but can be substituted with any of the normal Mobile wheel types. The Load Rollers come in Steel or Poly/Aluminum only.

### SPECIFICATIONS:

|                      |                       |
|----------------------|-----------------------|
| Load Capacity:       | 4,500 lbs.            |
| Fork Lengths:        | 32" / 36" / 42" / 48" |
| Overall Fork Widths: | 20.5" / 27"           |
| Fork Width:          | 6.5"                  |
| Lowered Fork Height: | 2"                    |
| Raised Fork Height:  | 5.5"                  |
| Steer Wheel:         | 7" X 2"               |
| Load Roller:         | 2" X 3"               |
| Weight:              | 170 lbs.              |

## “MINEY”

The MINEY was designed specifically for those 4-way Pallets used by businesses such as the Grocery industry.

Featuring a 2" lowered height, this model comes standard with a 48" fork length and a 32" overall fork width to suit the 4-way Pallet.

Like the MINI, the Load Rollers are only available in either Steel or Poly/Aluminum. The standard Steer Wheels are Poly/nylon but are also available in any of the Mobile Wheel Option types.

### SPECIFICATIONS:

|                      |            |
|----------------------|------------|
| Load Capacity:       | 4,500 lbs. |
| Fork Lengths:        | 48"        |
| Overall Fork Widths: | 32"        |
| Fork Width:          | 6.5"       |
| Lowered Fork Height: | 2"         |
| Raised Fork Height:  | 5.5"       |
| Steer Wheel:         | 7" X 2"    |
| Load Roller:         | 2" X 3"    |
| Weight:              | 170 lbs.   |

## “MO”

The MO is the lowest profile Pallet Truck on the market today. With a 1.5" lowered height, this unit is ideal for handling super low profile applications.

This unit comes in any of the standard Mobile fork lengths and widths and can be custom sized for specific applications.

The Steer Wheels are available in any of the standard Mobile Wheel Option types. The Load Rollers are available in steel only. This unit is rated to lift 3,500 lbs.

### SPECIFICATIONS:

|                      |                       |
|----------------------|-----------------------|
| Load Capacity:       | 1,500 lbs.            |
| Fork Lengths:        | 32" / 36" / 42" / 48" |
| Overall Fork Widths: | 20.5" / 27"           |
| Fork Width:          | 6"                    |
| Lowered Fork Height: | 1.5"                  |
| Raised Fork Height:  | 5"                    |
| Steer Wheel:         | 7" X 2"               |
