

MOBILE "WORK POSITIONER" STACKERS

MODELS: B50WPF (Fixed Fork) / B50WPF (Fixed Platform)
B60WPF (Fixed Fork) / B60WPF (Fixed Platform)

The Mobile "Work Positioner" Stackers are compact durable products that allow greater maneuverability in congested areas without sacrificing performance. Their ergonomic design eliminates back injuries due to fatigue, bending and straining.

The FF and FP stackers are Fixed Fork and Fixed Platform non-straddle models that are ideal for feeding presses, cutters, conveyors and machinery; and for transporting materials.

Mobile also has the capability to custom design these units for specific or unusual applications - call for details.

FEATURES:

Frame: Rugged heavy duty frame constructed of formed and welded steel for extra strength.

Mast: Fabricated with channel steel for greater strength and dependability. Open structure design complete with safety cage offers greater visibility.

Lifting Chains: Unique dual lifting chains are roller style, heavy duty steel exceeding a 6:1 safety factor.

Hydraulic System: Durable cylinder features a chrome plated ram and a relief valve for overload protection.

Forks: Heavy duty steel 4.25" wide X 42" long fixed forks. (shown)

Platform: Solid steel platform measures 26" X 26".

Battery: Features a heavy duty 12 volt, 125 amps/hour industrial strength battery.

Charger: The built-in battery charger is a 10 amp Selenium rectifier with transformer, circuit breaker and overload protection - plugs into any 110 volt outlet.

Steering: Features a pallet truck style steer handle for easy maneuverability.

Wheels: Features 5" phenolic rear casters for steering and 4" phenolic wheels with roller bearings located in the straddle legs.

Brake: Features a hand controlled floor lock brake that secures the unit in place.

Options: Modified Fork Lengths
Modified Platform Sizes
AC Power
Remote Control

SPECIFICATIONS:

Load Capacity:	1,500 lbs.
Load Center:	24"
Raised Fork Height:	50" or 60"
Overall Mast Height:	60" or 70"
Lowered Height:	4.25"
Fixed Fork Width:	7"
Fork Length:	42"
Platform Size:	26" X 26"
Overall Width:	26"
Weight:	590 lbs.
Castors:	5" Phenolic
Front Wheels:	4" Phenolic
Battery:	12V/125A heavy duty
Charger:	12V/10A w/overload protect
