

# MOBILE CUSTOM APPLICATION STACKER

## “MUFFLER SHOP” STACKER

MODEL: MFS96

Designed specifically for the Muffler Shop industry, the MFS96 is being used by Speedy/Car-X and Walker Muffler Shops all over North America.

By combining power lift with easy to maneuver manual push, the MFS96 eliminates bending and reduces back strains and injuries. Also, due to its custom design, it eliminates product damage through improper handling.

Perfect for loading and unloading trucks where there are no docks, the MFS96 provides a safe ergonomic alternative to fork lift trucks at a fraction of the cost. It is easy to use, is designed to handle constant heavy duty use, needs no special training to operate, and requires a minimum of maintenance.

### FEATURES:

**Frame:** Rugged heavy duty frame constructed of formed and welded steel for extra strength.

**Mast:** Fabricated with channel steel for greater strength and dependability. Open structure design complete with safety cage offers greater visibility.

**Lifting Chains:** Unique dual lifting chains are roller style, heavy duty steel exceeding a 6:1 safety factor.

**Hydraulic System:** Durable cylinder features a chrome plated ram and a relief valve for overload protection.

**Forks:** Heavy duty steel 1.5" deep X 3" wide X 42" long adjustable forks.

**Fixed Straddle Legs:** The straddle legs offer complete stability when lifting and transporting loads.

**Battery:** Features a heavy duty 12 volt, 125 amps/hour industrial strength battery.

**Charger:** The built-in battery charger is a 10 amp Selenium rectifier with transformer, circuit breaker and overload protection, and plugs into any 110 volt outlet.

**Steering:** Mounted in the center of the lower housing, the 5<sup>th</sup> wheel improves steering in tight areas and features 7" X 2" nylon wheels.

**Wheels:** Standard front wheels are nylon and 7" in diameter with roller bearings.

**Brake:** Features a hand controlled floor lock brake that secures the unit in place.

**Options:** Remote Control  
Snap-on Platform

### SPECIFICATIONS:

Load Capacity:	2,000 lbs.
Load Center:	24"
Lowered Fork Height:	3"
Raised Fork Height:	96"
Overall Mast Height:	69"
Fixed Straddle Legs ID:	50"
Fixed Straddle Legs OD:	56"
Fork Size:	1.5" X 3" X 42"
Fork Adjust OD:	6" - 25"
Weight:	950 lbs.
Steer Wheels:	7" Nylon
Front Wheels:	7" Nylon
Battery:	12V/125A heavy duty
Charger:	12V/10A w/overload protect
